In order to create a new USCIS Online Account, members of the public (i.e. users) must submit a valid email address; create a password; select their preferred method for interacting with a two-step verification process (authentication app, text message, or email); and provide responses to five password reset questions of their choice. These systems serve specific, unique purposes and may require the user to provide information beyond what is required to create an account/log in through the USCIS Online Account Access process. Each system may be considered a collection of

information in its own right and be covered by its own OMB Control Numbers. USCIS may add additional online systems for public use in the future.
